

Rivers Homework Menu

Set: Thursday 7th May 2026

Due in: Thursday 21st May 2026

Please note, this is a **two-week homework**.

Choose one activity from the Rivers 'Menu' of homework below. Please think carefully about how you would like to present this. It is a two-week task so the homework must be of a **high standard in content and presentation** as we would like to make a display of these where possible.

- Create a board game based on the life of a river. Include at least 10 facts along the way!
- Write a children's book aimed at 5-7 year-olds about a rock that travels down a river and where it ends up. Don't forget to illustrate it, too!
- Create a collage showing a waterfall. Include a paragraph explaining how a waterfall is formed.
- Create a tourist brochure persuading the reader to visit a famous waterfall. E.g Niagara Falls.
- Make a model showing the journey of a river from start to finish.
- Create a video explaining the Water Cycle. Make it as entertaining as you can! - You will need to email your video to adminoffice@heatherside-jun.hants.sch.uk. Be sure to include your name and class in the subject line and name the file as 'Water Cycle Video'. Please note, we can't help with technical difficulties with playback).
- Design 6 Top Trump cards based on Rivers around the world.
- Create a fact file about a World River. Find out as many facts as you can about the river. You may decide to produce a Powerpoint, a poster, a leaflet or an information text.

Have fun! We look forward to seeing your work!
