

Dear Parents

**Relationships and Health Education - Tuesday 2nd June at 7pm (via Zoom)**

Please join us to find out about our curriculum for [Relationships and Health Education](#), which is a statutory part of our curriculum.

We will be explaining what the Relationships and Health Education curriculum includes and how it links with the PSHE and Science curriculum. We will also be sharing the video resources that we plan to use for puberty and the non-statutory sex education content that we plan to deliver (conception and how a baby is born). The RSHE curriculum is covered across Key Stage 2 but the content of this presentation **is most relevant to Years 5 and 6**; although parents of all years are welcome to join us.

The content of our Sex Education curriculum remains the same as it has been previously and we will be using the same resources as last year from Kapow Primary. These are not available online and so parents are encouraged to join us for the webinar.

There will be the opportunity to ask questions on the evening.

**You will need to register in advance in order to receive the Zoom link for the event itself.**

[LINK TO REGISTER FOR WEBINAR](#)

**Kindly note that this will be the same presentation as the one we shared last year.**
