

Could you be eligible for a grant for your home?

There are thousands of pounds worth of funds available through national grant schemes that could help make your home warmer and reduce your energy bills.

You could benefit if:

- You are on certain means-tested benefits
- Your house is poorly insulated
- You are off-gas for heating with a household income under £36,000
- You are upgrading a boiler

Available grants for your home

Are you on certain means-tested benefits?

The **Energy Company Obligation** could provide a discount or free upgrades such as insulation or upgrading your heating system.

Who's eligible? Homeowners or tenants who are on certain means-tested benefits such as Universal Credit with a home that has an energy rating of D (homeowners only), E, F and G.

Is your house poorly insulated?

The **Great British Insulation Scheme** could provide single measure upgrades such as loft or wall cavity insulation at a discount or for free.

Who's eligible? Homeowners or tenants with a home that has an energy rating of D-G and Council Tax band A-D.

To apply or find out more about available grants, visit www.hart.gov.uk/home-grants

Are you not gas heated with a household income under £36,000?

The **Home Upgrade Grant** could provide an average £18,000 worth of upgrades including a full home assessment (and Energy Performance Certificate if needed).

Are you upgrading a boiler?

The **Boiler Upgrade Scheme** could provide up to £7,500 towards a low-carbon heating replacement such as an air source heat pump.

Advice on grants and energy saving

If you are unsure which grant is right for you or want advice on energy tariffs or energy efficiency, call Hampshire County Council's dedicated local advice line:

The Environment Centre (Hitting the Cold Spots)

9am to 5pm, Monday to Friday
